# Examination Information and Guidelines for Students and Parents

# Introduction

Public examinations can be a stressful time for students and parents and it is important that all those involved are as well informed as possible. Well-informed students will realise that the rules and regulations are designed to ensure fairness and minimise disturbance and it is in the interest of all that the examinations run smoothly.

Oldham Hulme Grammar school will make every effort to ensure that candidates receive the best possible preparation for their examinations, that the administrative arrangements run smoothly, and that the examinations are conducted in a way that will cause as little stress as possible and help students to achieve their potential. Trial examinations operate with the same standards and rules in order to familiarise students with the process.

This booklet is intended to provide information about examination procedures, to answer some of the most frequently asked questions and to help guide and support students and parents through the examination process.

It also contains the formal notices that are required by regulation to be given to each candidate.

If you have a query on the day of the examination, please contact the main reception on 0161 624 4497.

# Frequently Asked Questions

## Who decides which examinations I can sit?

It is centre policy to enter every student who is being taught a subject for the most appropriate level of examination. Only by exception, after consultation with parents, will students not be entered.

## Can I take holidays during the examination period?

Dates for examinations are rigidly fixed by the examination boards and are subject to change until close to the start of the examinations. The Examinations Manager cannot give actual dates for examinations to parents or students in advance.

Parents are reminded that they require permission to take students out of school if they book holidays during term time. Parents do so at their own risk. It is strongly against good practice and centre policy to take holidays in term time.

## Where will my examination be held?

Both A Level and GCSE examinations will be held in either the Girls' Hall or the Main Hall, the exception being year 11 students with specific pre-arranged Access Arrangements who will sit their examinations in room 106.

## What happens if I have an examination clash?

If a student is timetabled to sit two or more examinations at the same time this is known as a clash. If these are for the same subject, for example French Listening and Reading, this is intentional on the part of the board and the examinations should run one after another.

*If candidates are taking two or more examinations in a session and the total time is **three hours or less**, the centre may decide the order within the timetabled session in which to conduct the examinations. Candidates may also be given a supervised break of no more than twenty minutes between papers within a session. This must be conducted within the examination room, under formal examination conditions at all times. This means that candidates cannot use this time to revise.*

*If candidates are taking two or more examinations timetabled for the same session and the total time is **more than three hours** including approved extra time allowances and/or supervised rest breaks, the centre may conduct one examination in a later or earlier session within the same day. The centre may determine the examination which is to be conducted in a later or earlier session within the same day. ([Taken from the JCQ ICE Booklet, section 7](#))*

In rare cases it may be necessary for a paper to be done the next day and it is a requirement that the candidate is supervised overnight. This is essential to avoid compromising the integrity of the examination and needs to be organised well in advance.

If an examination is delayed from a morning to an afternoon session the candidate will be supervised over lunchtime. They should bring some revision or reading material and their lunch and a drink. Attempting to communicate with any other candidate will invariably result in the loss of all those examinations for all of the candidates involved.

Individual arrangements for clashes will be issued with the students timetable by the examinations office.

### **Can I leave the examination room if I finish my examination early?**

Students should use all of the available time on their examinations and spend any time at the end checking their answers. In any event you will not be permitted to leave before the duration of the examination. You must sit quietly at your desk so as not to disturb other candidates.

### **What is meant by Malpractice?**

Malpractice is the term that the examination boards use for any irregularity, or breach of the regulations. The Examinations Manager is required to, and will, report all infringements to the appropriate body and they will decide on the action to take based on the nature of the infringement. There is a tariff system of actions that can be taken and some infringements carry automatic loss of marks as a minimum penalty. The examination boards take the integrity of examinations very seriously and it is important that candidates heed the instructions carefully.

*'Candidate malpractice' means malpractice by a candidate in connection with any examination or assessment, including the preparation and authentication of any controlled assessments, coursework or non-examination assessments, the presentation of any practical work, the compilation of portfolios of assessment evidence and the writing of any examination paper. For example:*

- ❖ *the alteration or falsification of any results document, including certificates;*
- ❖ *a breach of the instructions or advice of an invigilator, supervisor, or the awarding body in relation to the examination or assessment rules and regulations;*
- ❖ *accessing the internet or online materials during remote assessment and remote invigilation, where this is not permitted;*
- ❖ *failing to abide by the conditions of supervision designed to maintain the security of the examinations or assessments;*
- ❖ *collusion: working collaboratively with other candidates, beyond what is permitted;*
- ❖ *copying from another candidate (including the use of technology to aid the copying);*
- ❖ *allowing work to be copied, e.g. posting work on social networking sites prior to an examination/assessment;*
- ❖ *disruptive behaviour in the examination room or during an assessment session (including the use of offensive language);*
- ❖ *failing to report to the centre or awarding body the candidate having unauthorised access to assessment related information or sharing unauthorised assessment related information online;*
- ❖ *exchanging, obtaining, receiving, passing on information (or the attempt to) which could be assessment related by means of talking, electronic, written or non-verbal communication;*

- ❖ *making a false declaration of authenticity in relation to the authorship of controlled assessment, coursework, non-examination assessment or the contents of a portfolio;*
- ❖ *allowing others to assist in the production of controlled assessment, coursework, nonexamination assessment or assisting others in the production of controlled assessment, coursework or non-examination assessment;*
- ❖ *being in possession of unauthorised confidential information about an examination or assessment;*
- ❖ *bringing into the examination room notes in the wrong format (where notes are permitted in examinations) or inappropriately annotated texts (in open book examinations);*
- ❖ *the inclusion of inappropriate, offensive, obscene, homophobic, transphobic, racist or sexist material in scripts, controlled assessments, coursework, non-examination assessments or portfolios;*
- ❖ *plagiarism: unacknowledged copying from, or reproduction of, published sources or incomplete referencing;*
- ❖ *bringing into the examination room or assessment situation unauthorised material, for example: notes, study guides and personal organisers, own blank paper, calculators (when prohibited), dictionaries (when prohibited), watches, instruments which can capture a digital image, electronic dictionaries (when prohibited), translators, wordlists, glossaries, iPods, mobile phones, MP3/4 players, pagers, or other similar electronic devices;*
- ❖ *facilitating malpractice on the part of other candidates;*
- ❖ *behaving in a manner so as to undermine the integrity of the examination.*

### **What happens if I'm unwell at the time of one of my examinations?**

Even if you would not normally visit your doctor's surgery for minor illnesses, it is important that you do so at examination time. Your doctor will advise as to whether you are fit enough to sit the examination. If you are unwell but able to take the examination, your doctor should provide a letter providing details of the illness which may be sent to the examination board to request special consideration on the grounds of illness. If you are too unwell to take the examination, the board may, after examining the doctor's letter and any evidence of performance on other papers, decide to award a grade. It is essential that you see your doctor on the day of the examination at the very latest. Retrospective information is not accepted by the examination boards and any doctors' letters must be forwarded to the examinations office without delay.

Please telephone the school if you will not be attending an examination or if you will be present but feeling unwell (it is often helpful for the invigilator to be aware that a candidate is not well).
